

LaRC SAFETY HIGHLIGHTS

July 31, 2000

FY 2000 – Civil Servants

() = Number of new occurrences

OSHA Recordable Cases = Fatalities, Lost Time and Incidents

Incidents = Non-first aid medical cases which have less than 8 hours lost time

- The Center has been 24 days without a civil servant experiencing a Lost Time Injury (Record 251 days).
- LaRC Safety Information – Employees (civil service or contractors) who engage in work activities with potential exposure to ionizing or nonionizing radiation, hazardous materials, pyrotechnic devices or elevated work areas 25-feet or higher require specialized training.
- The following first aid cases involving a civil servant were reported:
 - An Aerodynamics, Aerothermodynamics, and Acoustics Competency (AAAC) employee tripped while descending a stairway sustaining a left leg strain.
 - An AAAC employee sustained a contusion to her right hand when a model insert being placed in a box slipped and dropped on her hand.
 - A Structures and Materials Competency employee received a splinter to his right hand while handling a composite specimen.
- Hydrogen Safety Training will be held August 1-4, 2000, in Building 1224T7, 8:00 a.m. – 4:00 p.m. (Contact - Grant Watson, 43069)
- Forklift Training – Tuesday, August 8, 2000, Building 1162, Room 122, 8-9:00 a.m. (Contact - Chip Quinn, 48743)
- Safety Channel 11 Video Schedule – July 31 – August 4, 2000 – Hazards of Gas Welding, Summer Safety, Handling Gas Cylinders, Eye Protection, Office Safety, Safety Awareness, Protective Clothing and Equipment, and Slips, Trips and Falls. (Contact - Chip Quinn, 48743)
